Module 2:Alumni Directory &Tracking Module

Alumni Profile Management: Allows alumni to create, update, and manage their profiles, including personal, educational, and professional details.

Centralized Alumni Directory: Maintains alumni information such as name, graduation year, department, current organization, job role, location, and contact details.

Search and Filter: Enables students and administrators to easily find alumni based on department, batch, profession, company, location, or other criteria.

Career Tracking: Records alumni career information, including employment status, job changes, promotions, higher studies, and entrepreneurship.

Location Tracking: Helps identify where alumni are currently living or working, supporting regional networking and alumni events.
